

Avalanche Rescue Management

Frein an der Mürz

Sun. 10 Jan. 2010

Course Number: n100014

For Ski mountaineers - Snowboarders - Snowshoe hikers

Course taught in the English language.

When did you practice with your avalanche beacon the last time? Do you know how to organize your group to dig out your comrade(s) fast? Did you ever dig out a body from the snow? For one evening and a day at an "avalanche debris" site, you learn efficient rescue management after an avalanche accident.

Cost: € 70 –, for guide fee, presentation

Guide: Merstallinger, Michael

Requirements: ST2, K1-2, some experience in ski mountaineering or snowshoeing, interest in improving independent and self-assured actions

Preliminary meeting: Thu. 07 Jan. 2010 18:30 Presentation: theory and basics

Register by: Tue. 29 Dec. 2009
